

Prince of Hollywood

Count Gian Luca Passi de Preposulo is the top authority in Hollywood through his marriage with the actress Jessica Chastain and he manages cults of Scientologists and Kabbalists. Count Gian Luca is a psychopath that is ruthlessly vain and egotistical and he claims to be the head of the Illuminati and falsely claims he controls the hundreds of members of the Black Nobility. He is not and he is managed by the Lucchesi-Palli family. He is a disgusting monster that is disturbingly obsessed with himself. The Passi de Preposulo family are a Venetian-Lombardy nobility that still headed up by Count Gian's father Count Alberto and his wife Countess Barbara. The family were mediators between the Guelph and Ghibelline factions however they were also architects of this division. The name Passi refers to a pass and their location having control over the road to Switzerland. The control over this region made families like the Passi de Preposulo's extremely wealthy. The Benetton family are from the Passi de Preposulo territory of Treviso, Veneto and worth collectively around 11 billion as the owners of Benetton Group and the holding company Edizione. Luciano Benetton and Giuliana Benetton are the top members of this family and their brothers Gilberto and Carlo died in 2018. Franca Benetton, Alessandro Benetton, Sabrina Benetton, and Christian Benetton are also members of this family and are top executives of their holding company Edizione. Rocco Benetton is another member of this family he has residences in the United States. The Benetton family are Court Factors for the House of Passi de Preposulo. The name Preposulo refers to preparation. Count Gian Luca Passi de Preposulo is overseeing Hollywood and their militant Church of Scientology which is used for gathering intelligence on Americans and for carrying out torturous electronic attacks through the electronic grid and this includes wireless frequencies, modern electronics, smart phones, electrical substations, smart meters, and transformers. They are spraying the skies with nano conductive particles that enhance frequencies designed to hack into the brain and physiology. DARPA and Silicon Valley have weaponized the electronics systems in the United States and use the Church of Scientology to carry out attacks on Americans. The electronic grid is programmed with GENESIS and NEURON brain hacking systems. Count Gian prepares attacks, pay offs, and human trafficking networks. Under his authority countless children have been trafficked into Hollywood and sacrificed by sadists. Count Gian Luca Passi di Preposulo is a mass murderer and psychotic zealot that needs to be executed.

Many major Hollywood actors are initiated into various secret societies. Their initiations include blood drinking, pedophilia, human sacrifice, and other criminal activities. It is through these initiations they are allowed to get movie roles and become wealthy. Hollywood is a satanic cult and most of its members are criminals and the greatest crime they are committing is human trafficking and human sacrifice. Their invested interest in targeting Americans who speak out against corruption is them not wanting to go to prison. Another top authority in Hollywood is the adopted German Prince Frederic von Anhalt who lives in Bel Air. Count Gian Luca Passi de Preposulo is the highest authority in the Hollywood cult and works with the wealthy Ferragamo family of Italy who are also nobility of Lombardy. They opened a store in Hollywood in the early 20th century. The Ferragamo family name gamo derives from Ber-gamo. Gamo means marriage. The family specializes in arranging marriages like with Count Gian Passi de Preposulo and Jessica Chastain. Jessica Chastain is the Illuminati's Vicar of Charis and a high level member of the Cult of Venus. Venice is named after Venus. Prince Francesco Ruspoli of Rome is married to Angelica Visconti-Ferragamo whose grandfather was Salvatore Ferragamo and she is also from the Visconti noble family of Milan which

use a serpent eating a child on their coat of arms. Count Preposulo specializes in preparing attacks on people who are speaking out through their intelligence network and connection with members of the Church of Scientology like the actors Will Smith and George Clooney who he is friends with. George Clooney was married in Venice and works under Venetian nobles including the Passi de Preposulo family as the ceremonial leader of Hollywood. Will Smith is an extremely torturous sadist that uses electronic weapons to attack people. Will Smith and his sadistic wife Jada Pinkett Smith are both Scientologists and even financed a school for Scientology. The Smiths are also involved in transsexualism and dress their son up as a girl. Will Smith also forcibly kissed his son on the mouth on television on three different occasions and this shows his rapist mentality. Will Smith is extremely evil. The Smiths are close friends with Count Gian Luca and Jessica Chastain. Count Gian finances satanic women that purchase and seduce small trafficked boys, molest them, strangle them to death, and then cannibalize them. Jessica Chastain rapes, murders, and cannibalizes children. This is what many evil women in Hollywood are doing and these child murdering women claim "eating children is normal." What is normal is executing child murderers. That is normal. Jessica Chastain also burns children alive. Prince Gian Luca Passi de Preposulo deserves to be burned alive and needs to be killed as soon as possible. Count Gian is the biggest child trafficker and murderer in Hollywood. Hollywood is dangerous religious cult made up of wealthy Satanists and Luciferians who are weaponized and fear their imprisonment if the government corruption loses its power.

It is the **city of Venice** in the Renaissance that perhaps has the **most in common with** the mythological figure of **Venus**. The close similarity of their names and their **relationship with the sea** perhaps suggest that Venetians drew value from connecting the image of the goddess with the image of the city. An especially meaningful connection involves the idea of their respective origins. **Both Venus and Venice were literally born of the sea.**

This painting is called the Birth of Venus and depicts an orange haired woman being birthed from the sea out of a seashell. The orange haired Jessica Chastain is a top member of the Cult of Venus or Cult of Aphrodite and she is their Vicar of Charis which would be correctly identified as a daughter of Aphrodite. The Vicar of Aphrodite is a child murderer and cannibal named Lucille DesRoches. The Cult of Venus represents vanity, narcissism, demonic lust, and greed.

Count Gian and Jessica Chastain with their close friends Will Smith and Jada Pinkett Smith who both have studied Scientology, have donated to Scientology, and financed and managed a school for children using Scientology and they still deny they are Scientologists. Scientology is a cult however what it really is about is using electronic weapons on people in society. They use systems like GENESIS, NEURON, and BRIAN which are "neuro and biological simulators" which really are designed to hack into the brain and biology and can be emitted through most modern electronics and function through electronic emissions and wireless frequencies. They can hack a person's computer and run these neuro-bio hacking software through them and attack people in society.

Of course Jada Smith was a Scientologist, says principal who ran her Scientology school

That assertion caused a bit of a media storm, but we had really good sources on this, and we still believe it to this day — while **Will Smith had dabbled in Scientology** and had at one time **financed a Scientology "Study Tech" elementary school**, by 2015 he was no longer involved in it at all.

We have known for years that the **dedicated Scientologist in the family was Will's wife Jada Pinkett Smith**. In 2008, **the Smiths opened up a private school that used Scientology "Study Technology,"** and also used ideas from Scientology "ethics." The school was **financed for three years by the Smiths**, then struggled to bring in enough funding to continue, and it closed up in 2013.

We still have the only interview with the school's first principal, Jacqueline Olivier, who told us about Will Smith enforcing the Scientology rules at the school.

She was fired a year later, however, because the truth was the opposite, she admitted to us: **The Smiths not only wanted Scientology materials used in class, but they also were submitting the children to Scientology concepts of "ethics," which is the church's euphemism for "control."** Olivier had believed she could minimize the Scientology content and produce a fine private school, but the Smiths had other ideas and replaced her with a friend who was a Scientologist.

Will Smith and his daughter Willow Smith with Jessica Chastain. The Smiths named their son after his mother Jada and named their daughter after her father Will. The Smiths are one of the most evil families in Hollywood and they are involved in cannibalism, drinking human blood, bathing in human blood, rape, pedophilia, and transsexualism as well as electronic terrorism. Will Smith is a disgusting coward who attacks people with electronics out of envy. Will Smith thinks he can will himself into becoming god and he thinks this because he is a moron who claims "I can create whatever I want to create" and "2+2's gon be what I want it to be." Will Smith is a relentless narcissistic devil that has orgies with his wife and children and is extremely cannibalistic.
